

Are you a high school student interested in pursuing a career in healthcare?

JOIN US ON A VOYAGERS VIRTUAL TOUR

Bayhealth's Voyagers program features monthly virtual tours of areas such as the Operating Room, Oncology, Public Safety, and more. These virtual tours are free and are offered through live Webex meetings. They provide students in grades 9–12 the opportunity to learn about the various aspects of the healthcare field. Each hour-long meeting also includes a Q&A session so participants may ask any questions they may have.

For dates and times and for information on how to register for upcoming Voyagers meetings, visit:
